The Perfect Pairing
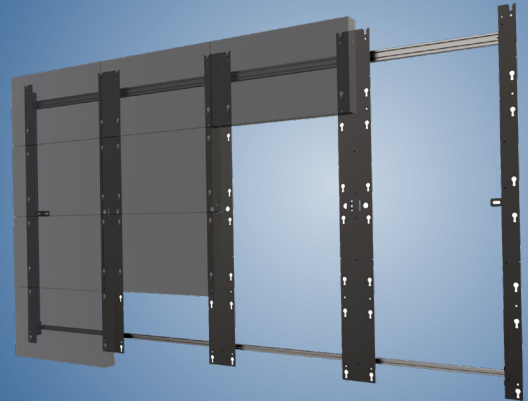

Peerless-AV's SmartMount® Flat Wall Mount for Direct View LED offers the perfect solution for Absen's N4 and N4D Series Indoor LED Panels.
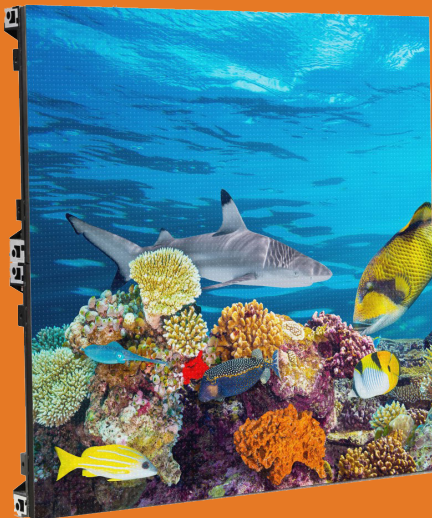

SmartMount® Flat Wall Mount for Direct View LED

- Height and depth adjustment overcomes installation irregularities to assure the LED pixels are aligned
- Slim, lightweight design enables an easier install and minimises the wall load
- Quick assembly and minimised errors using predetermined adaptor rail locations
- Modular Design for unlimited video wall display configurations
- Precision engineering ensures the cabinets are properly positioned
- Integrated cable management for professional, tidy finish

Absen N4 & N4D Series

- Fully front install and service - Unique fast swap LED modules with magnetic fixing.
- Modular design, flexible size.
- Super-thin and lightweight – it has an ultra-slim profile with a depth of just 56mm.
- 4,000 nits brightness on N4D Series (more than four times brighter than the N4).
