## SMARTMOUNT.

### Video Wall Mounting Systems for Direct View LED Displays

The SmartMount Video Wall Mounting System offers slim, space-saving and aesthetically appealing designs exclusively engineered to support the Samsung 130" All-in-one LED display.

## Features

- Height Adjustment Overcomes installation irregularities to assure the LED pixels are aligned
- Depth Adjustment The entire mount creates one flat plane, regardless of wall imperfections
- Lightweight Design Aluminium frame is easier to install and minimizes the wall load
- Quick Assembly Predetermined adaptor rail locations speed up the assembly and minimize the errors
- Precision Engineering Tight tolerances and wall plate spacers assure the cabinets are properly positioned

# LED Display Technical Experts at Your Service

PSCo's Onsite Assistance service integrates seamlessly with your business. Providing Samsung LED Signage Certified Technical Experts to bolster your onsite capability and safeguard the installation of Samsung's flagship 130" All-in-one LED display.

Extensively trained in the design and installation of LED display systems, with over 100+ successful Samsung direct-view LED display installations, our All-in-one Onsite Assistance package extends unrivalled experience and expertise to your team, from site survey to sign off.

- Dedicated PSCo LED Specialist.
- Single-Supplier Service.
- Nationwide Coverage.
- Samsung LED Signage Certified Technical Experts.
- Trade-only. Unbranded. Extension of Your Team.
- Comprehensive Site Survey & Report.
- Dedicated Logistics. LED Optimised.
- Mount Frame Configuration.
- LED Display Setup, Alignment and Commissioning.
- Functional Test and Sign Off.
- Full Pixel Protection.
- Risk Free Cover.

SITE SURVEY	Attend site with your team prior to installation to ensure the site has the appropriate structural, power and data provisions. Providing a full site survey report, with comprehensive details of technical requirements.
OPTICAL PARAMETER	Dedicated logistics service fully insured. Tailored to fragile fine pixel pitch LED displays.
INSTALLATION	We provide a Samsung LED Signage Certified Technical Experts to work with your onsite team. They will unbox and inspect LED panels prior to mounting on the approved mount frame system, ensuring panels are positioned securely. Our technical experts will mechanically align the LED display, checking and rectifying any seam issues on site. The team will setup and test all intersection power and data connections as well as the set up and configuration of head-end LED display controllers. A full commissioning and functional test will be undertaken to ensure power source and data/video connections are working. With a completion report and commissioning check list will be provided for your client handover.
REPAIRS	Full management of LED module pixel repair returns, including manufacturer warranty validation and return to client site
